Aastra IP Telephones

www.aastratelecom.com

With the introduction of our new Aastra 5i series of IP Telephones, Aastra expands our IP Telephone product line, providing additional choice, flexibility, mobility and expandability in SIP telephones.

Aastra's 5i family of telephones feature larger screens for advanced, productivity enhancing XML applications, elegant, global styling and optional add on modules for console and reception purposes.

All Aastra SIP phones offer:

- » XML browser capability
- » Advanced, integrated interoperability with major IP telephony platforms
- » Full duplex speakerphones
- » Multiple line/call appearance lights
- » Simplified deployment
- » Intuitive, user friendly screen menus and interfaces
